About "no more lies (ep)"

"No More Lies" is Noble Dru's debut solo offering. The digital EP is the first offering from the forthcoming full length CD entitled "Hell Is Here". As a beatmaker, emcee and lyrical truth scientist Noble Dru puts all of his gifts in motion with No More Lies.

With the assistance of fellow Chicago producer, Radius, Noble crafted the No More Lies B-side, No Time To Kill. While on No More Lies Noble crafted not only the lyrics but he also blessed the beat and even the cutting. This EP also will included a bonus song "Get Back" with Noble Dru and fellow crew member Therapy spitting daggers at emcees. From the ominous chopped samples & break beats to the the sinister cuts and message laden lyrics, this project is the future of b-boy science.
